WORK EXPERIENCE

FUTURPRENEUR CANADA | IT INTERN

July 2022 – Present

- Worked alongside a mentor to correct front-end issues in JQuery.
- Performed proper code tests and modified website elements in HTML and CSS to improve user experience.
- Provided proper documentation and explanations for code that was added to production.

SAC BRANT | MANAGER OF ADMINISTRATIVE RECORDS

July 2021 – September 2021 | Brantford, Ontario

- Self-directed the transfer of files to an online platform through Microsoft SharePoint. Performed general IT troubleshooting where applicable.
- Established an organizational structure with Microsoft Workflows based upon the needs of the organization.
- Developed a superior platform for administrative record storage and created in-depth user guides for coworkers.

FOUNDATION OF STUDENT SCIENCE AND TECHNOLOGY | DATA SCIENCE CO-OP

STUDENT

July 2019 – September 2019

- Researched biometric programming alongside an MSc. candidate Data Science student-mentor.
- Studied Python and the OpenCV library. Wrote introductory programs pertaining to data science. Completed daily check-ins to communicate progress.
- Completed a literature review about current soft biometric use and applications within the security of general society.

PROJECTS

SNIBBIT CODE | JAVASCRIPT, HTML, CSS

2021

- Self-managed the development cycle of a Chrome Extension
- Researched front-end technologies to create a web-based application. Studied JavaScript to write functionalities for the extension.
- Used HTML, CSS to create popups and JavaScript to identify keywords and properly fetch and receive data. Released the project on the Chrome Web Store.

GARBAGE DAY | JAVA

2022

- Developed a Java-based computer game, completing objectives in sprints.
- Used the JavaFX library to create a GUI using the Model, View, Control design pattern. Leveraged multi-threading for the addition of game sprites and animations.
- Applied knowledge from the course "Data Structures and Analysis" to improve program efficiency.

PROGRAMMING

Proficient:

Python • Java • JavaScript

Experienced:

C# • C • HTML & CSS

Familiar:

Assembly

LIBRARIES & FRAMEWORKS

React • Blazor • JQuery

TOOLS & PLATFORMS

Git • Agile & Scrum
Methodologies • Linux

PROFESSIONAL

Team player • Highly reliable •
Strong problem-solving skills •
Quick Learner

EDUCATION

UNIVERSITY OF TORONTO MISSISSAUGA

BSC. CANDIDATE IN COMPUTER
SCIENCE

Sept 2020 - Present | Mississauga,
Ontario

COURSES TAKEN

Software Design

Introduction to the Theory of
Computation

Data Structures & Analysis

Software Tools & System
Programming
